<i>Executive Orders</i>				
E.O. 13148	Greening the Government through Leadership in Environmental Management	April 2000	Ensure that all necessary actions are taken to integrate environmental accountability into agency day-to-day decision-making and long-term planning processes, across all agency missions, activities, and functions; environmental management considerations must be a fundamental and integral part of Federal policies, operations, planning, and management.	Pages 13, 58
E.O. 13101	Greening the Government through Waste Prevention, Recycling, and Federal Acquisition	September 1998	The head of each executive agency shall incorporate waste prevention and recycling into the agency's daily operations and work to increase and expand markets for recovered materials through greater Federal government preference and demand for such products. It is the national policy to prefer pollution prevention, whenever feasible. Pollution that cannot be prevented should be recycled; pollution that cannot be prevented or recycled should be treated in an environmentally safe manner. Disposal should be employed only as a last resort.	Pages 21, 29
E.O. 13089	Coral Reef Protection	June 1998	All Federal agencies whose actions may affect U.S. coral reef ecosystems shall identify their actions that may affect U.S. coral reef ecosystems; utilize their programs and authorities to protect and enhance the conditions of such ecosystems; and to the extent permitted by law, ensure that any actions they authorize, fund, or carry out will not degrade the conditions of such ecosystems.
