Department of Defense	\$6.1B

Gross Domestic Product by State, U.S. Department of Commerce, 2012

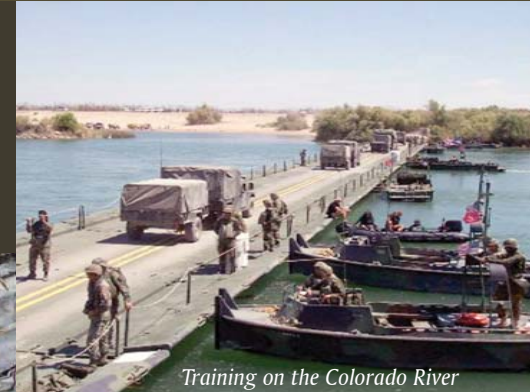

Did You Know In OKLAHOMA

- DoD expenditures in Oklahoma total more than \$6 Billion state-wide.
- DoD employs more than 80,000 military and civilian personnel in Oklahoma.
- Ammunition shipments from McAlester Army Ammunition Plant are crucial to support the initial 30 days in any conflict.

We Must Train As We Fight

Our troops need to train in settings similar to the real combat environments they will find themselves in. This ensures that when called upon, their fighting skills are second nature.

Training on the Colorado River

Crossing the Saddam Canal, Iraq

Maintaining A Natural Environment Is Critical

Our fighting men and women must train in realistic, natural environments. Our commitment to healthy, well-managed natural resources will provide realistic training today and into the future.

Linking DoD And The State

DoD's Regional Environmental Coordinators focus on working cooperatively with state rule-writers and legislators to help maintain realistic training environments. This proactive approach provides solutions that help ensure military readiness.

Sustaining Readiness In Partnership With States

DoD IN OKLAHOMA

Oklahoma National Guard and other Reserve Components

The Guard and Reserve organize, train, and equip citizen soldiers/airmen to ensure their rapid mobilization for duties within the state, nation and around the world. While all Reserve Components have a federal mission to augment active duty forces in times of crises, the Guard has the additional, unique mission of serving the Governor during state emergencies. Guard and Reserve units are stationed throughout the state.

Tinker Air Force Base

Tinker AFB is one of the DoD's premier joint service facilities. The Oklahoma City Air Logistics Center (OC-ALC) is the largest of three ALCs in Air Force Materiel Command and provides depot maintenance, product support, services and supply chain management, as well as information support for 31 weapon systems, 10 commands, 93 Air Force bases and 46 foreign nations. The 72nd Air Base Wing is the host organization for Tinker Air Force Base and provides critical base functions including: security, fire protection, medical services, civil engineering, communications, supply, transportation and air field operations.

Altus Air Force Base

Altus Air Force Base serves as home to the 97th Air Mobility Wing and the Mobility Training Center of Excellence. The mission of the 97th is to enable Global Mobility by expertly training airlift and aerial refueling aircrews to achieve global reach and power while simultaneously maintaining worldwide deployment capabilities. Altus is home to the agile C-17 Globemaster III, the so-called "hot rod of the heavies," featuring a unique winglet, an expansive cargo area, powerful engines, and huge lift capacity.

Vance Air Force Base

Vance Air Force Base is home to the 71st Flying Training Wing. The mission of the 71st is to train military pilots to sustain the combat capability of American airpower with the next generation of pilots. As the Air Force's only Joint Specialized Undergraduate Pilot Training Wing, Vance is responsible for training Air Force, Navy, Marine Corps and allied pilots for worldwide deployment and Aerospace Expeditionary Force support. Primary aircraft used at Vance include, the T-38 Talon, T 6 Texan II and the T-1 Jayhawk.

Fort Sill

Fort Sill serves as the home of the US Army Field Artillery School, US Army Air Defense Artillery School, the 424th and the 434th Field Artillery Brigades, the USMC Field Artillery Detachment and the Army's Fires Center of Excellence. Fort Sill's mission is to train artillery soldiers to put "steel on target." With 94,000 acres of training lands and cantonment area, Fort Sill is the largest field artillery training complex in the world and provides the U.S. Army with one of its most valuable resources . . . enough land to support tactical maneuver by the M109 Paladin Self Propelled 155 mm Howitzer, the Multiple Launch Rocket Systems (MLRS), and other heavy and light support vehicles. Fort Sill is also home to the 31st Air Defense Artillery Brigade, 75th Fires Brigade and the 214th Fires Brigade.

McAlester Army Ammunition Plant (MCAAP)

McAlester Army Ammunition Plant (MCAAP) is one of the nation's four critical materiel handling installations. MCAAP has the capacity and requirement to ship 435 individual 20-foot containers of explosive ordnance per day for the initial 30 days of a conflict, providing time to bring other ammunition facilities around the country to full production. McAlester AAP encompasses over 45,000 acres in rural, southeastern Oklahoma and has more than 2,400 explosive storage structures. The plant is capable of handling everything from rifle ammunition to 5,000-pound bombs.
