## Did You Know? Facts about Rhode Island

- Naval Station (NAVSTA) Newport is home of the Navy's most prestigious educational institution, the Naval War College, the oldest such institution in continuous existence anywhere in the world.
- Before being deeded to the State of Rhode Island in 1965, Fort Adams had served the U.S. Navy for ten years and the U.S. Army for more than a century.
- The 143rd Airlift Wing provided the first ever C-130J Aircraft in a combat role by the U.S. Air Force in 2004 to support the Global War on Terror.

## Department of Defense Mission

The mission of the Department of Defense (DoD) is to provide the military forces needed to deter war and ensure our nation's security.

## Sustainability and the DoD Mission

DoD facilities on land, on the water, and in the air protect our nation. The Regional Environmental Coordinator (REC) works cooperatively with state agencies and governments on environmental efforts to ensure continued use of necessary land, sea, and airspace – protecting the military's ability to maintain operations into the future and prepare U.S. service men and women to defend our country.

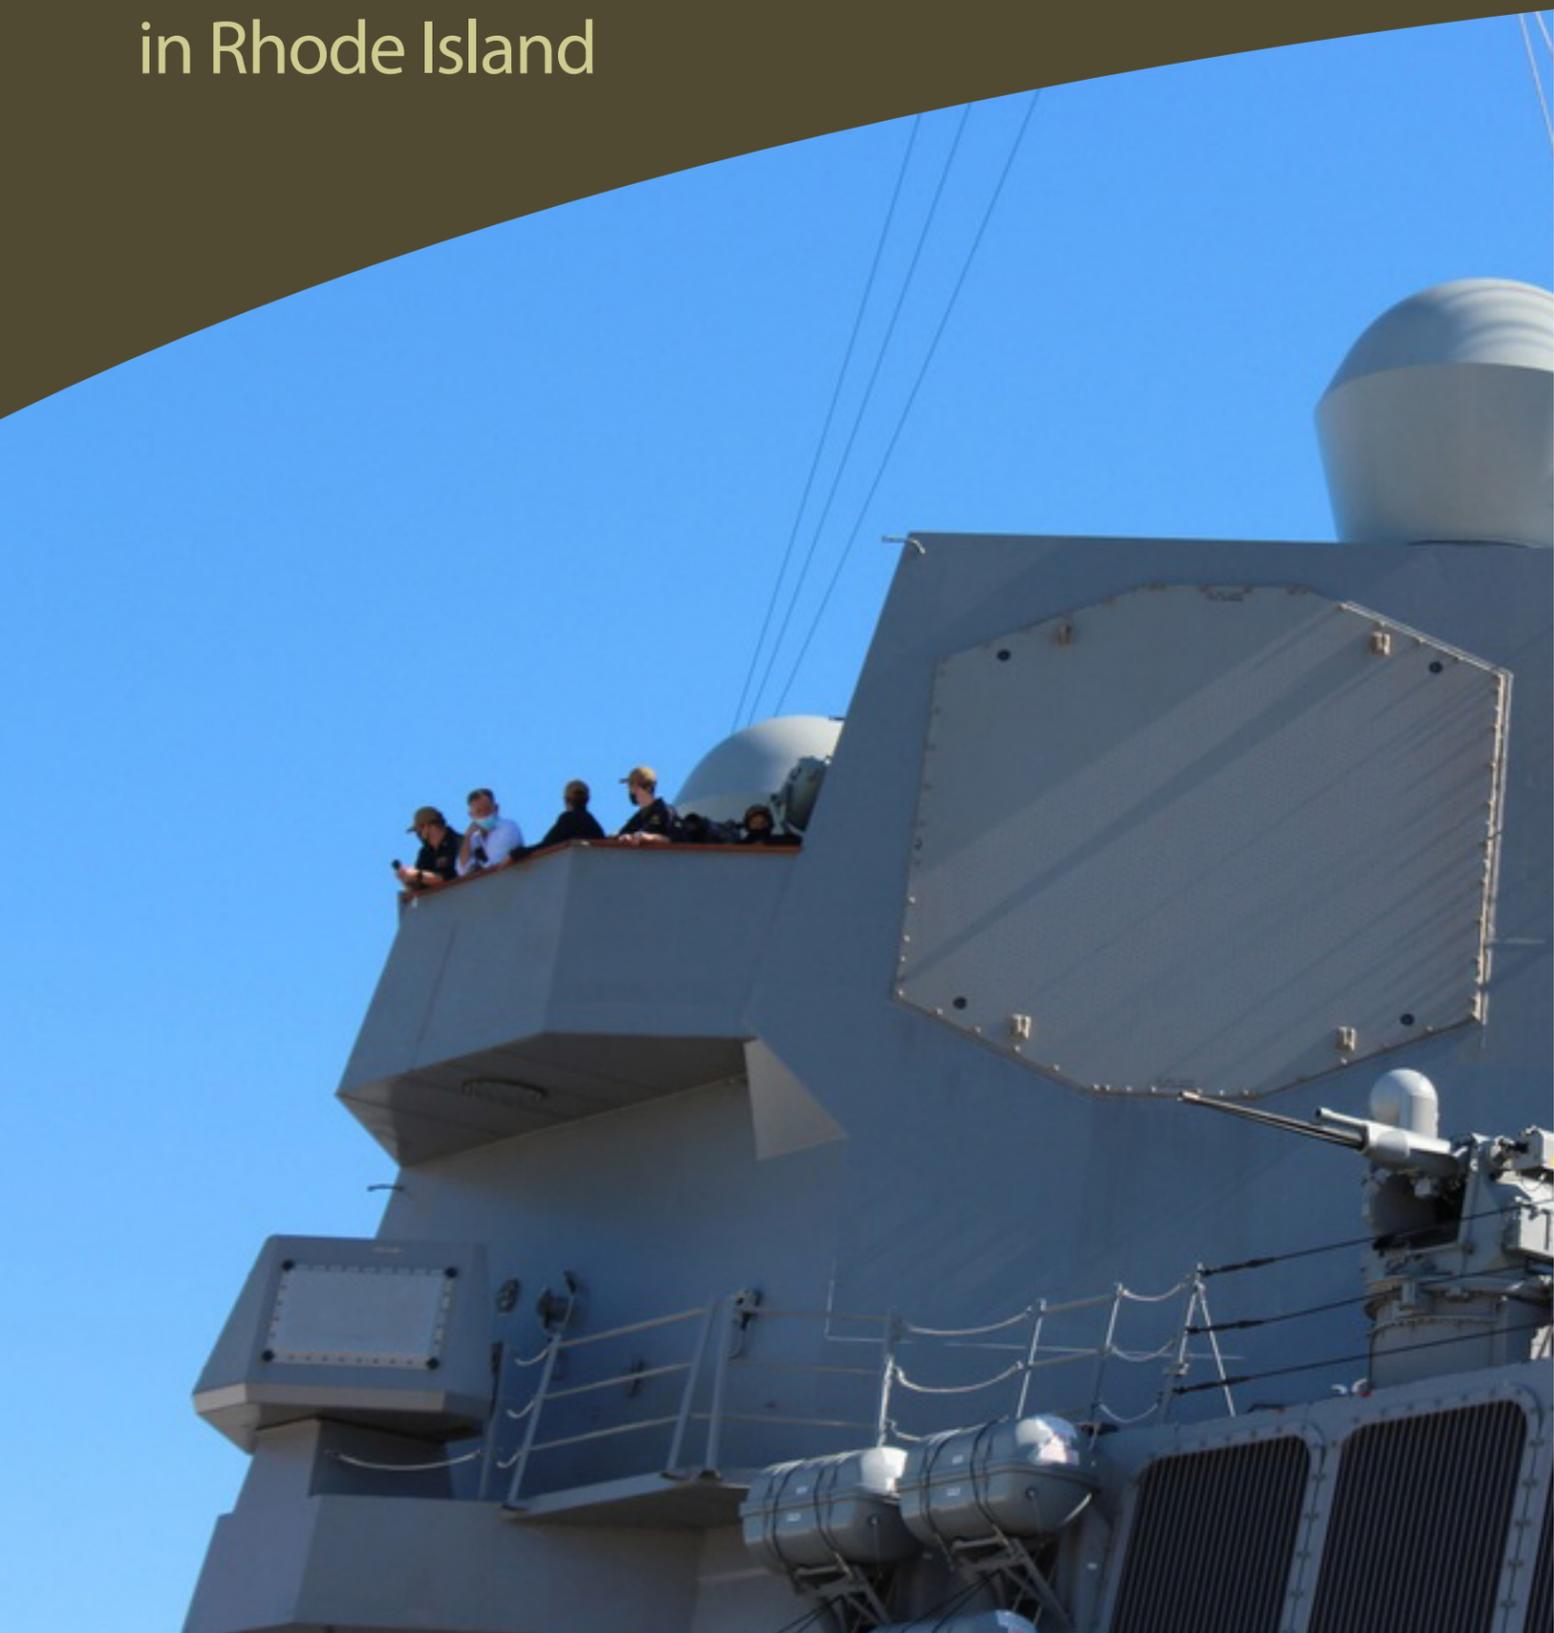

## DoD and State Partnerships

Through the REC program, DoD and military service representatives partner with state agencies and governments to strengthen environmental restoration and protection efforts and to promote long-term sustainability of the military mission. Program efforts include educating state agencies and officials about the military's operational and environmental needs, priorities, and concerns; communicating coordinated DoD positions on issues affecting military sustainment; and engaging in state legislative and rulemaking initiatives.
